

Contents:

Charging:

Plug supplied charging chord into each light and then plug into USB port. Charging will take about 2 - 2.5 hours. There is a charge indicator on the side of each light.

Installation:

Insert transmitter into the vehicle's trailer wire plug.

Turning Licence Plate Lights ON/OFF

Press down button for 3 seconds to turn on the license plate lights separately.

When License Plate Lights are turned on, press down button for 3 seconds to turn off the license plate lights.

Pairing:

Turn your vehicle on.

Turn your lights on.

Transmitter will automatically start passing signals to the wireless tail lights

Testing:

Make sure to test all the functions of your lights and ensure that they are in good working order before using them on the road.

Mounting

Lights are also equipped with D-Rings for more mounting options.

Run Time

- 100% Full Charge: ~8 Hours
- 50% Half Charge: ~4 Hours
- 25% Quarter Charge: ~2 Hours

Run times are approximate values only.
